GENERAL SCOPE of PROGRAM

The **Franciscan Soccer Club** offers children at the young ages of K – 2nd grade, a competitive learning environment where they can practice and play games without the distractions that formal league and tournament games present. Children, at young ages, should learn to play soccer for the enjoyment of it, not the status associated with winning. In the **ADTL**, FSC coaches teach the players how to develop a passion to compete and advance their knowledge of the game through challenging skills sessions that prepare them for our Club Team program later on.

- Children will meet once per week for about 1 ½ hours with an FSC Staff Coach.
- The first half of the session is learning fundamental principles of playing the game; the second half is a small-sided game.
- The program will run 4 seasons throughout the year – Fall, Late Fall, Winter 1, Winter/ Spring,
